

Section 6 – MPO FTIPs

Most of the MPOs have adopted new FTIPs that have been approved by the state for inclusion in the 2013 FSTIP. Each of these approved FTIPs, together with any approved FTIP amendments, is incorporated in this FSTIP by reference. To view these projects, click on the web links listed in the MPO FTIPs table below. Projects in non-MPO areas are directly listed in Exhibit 1.

The Metropolitan Transportation Commission (MTC) has postponed adoption of its 2013 FTIP to more closely align with development and adoption of Plan Bay Area, the region's long-range transportation and housing plan. Plan Bay Area is currently slated for adoption in 2013. The change in schedule is being made in response to public comments that suggested that the FTIP, a short-range transportation programming document, should better align with Plan Bay Area. Once this Plan is adopted, MTC will submit its 2013 FTIP for inclusion into California's 2013 FSTIP.

The MPO FTIPs are synchronized with the FSTIP programming period. Each of the FTIPs begins with the 2012/13 fiscal year, identified as year one for project priority selection purposes. Programming periods vary. Some FTIPs replicate the FSTIP four year programming period, while others include additional years beyond the fourth years of the FSTIP. Projects in MPOs FTIPs that are outside the four years of the FSTIP are listed for informational and or conformity purpose and are not considered part of the FSTIP.

MPO FTIPs For Federal Fiscal Year Period 2012/13 to 2015/16
